JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE SITE OF OLDE "JAMES TOWNE," 1607-1698. By Samuel H. Yonge.
Published by the Association for the Preservation of Virginia Antiquities. Richmond: 1904.

Mr. Yonge's masterly study of the topography of Jamestown and of its history from 1607 to 1698, which for some time past has been in course of publication in this magazine, is completed in the present number.

A limited edition has been reprinted and will be ready about November 1st. It will be neatly bound in cloth, and in addition to the maps and plans which have already appeared, will be illustrated by several new photographs of the places of chief interest on the island, and with a sketch, by the author, of a restoration of the original church.

It is needless to say anything in commendation of Mr. Yonge's work, for it has already established itself as the authoritative, and (perhaps it would not be too much to say), the final statement in regard to the topography of Jamestown.

The author, whose acquirements as an engineer were as essential as his learning as an antiquary for the task he took in hand, has resurrected the old "citty." He came to Jamestown (as U. S. engineer in charge of the construction of the sea-wall), and found a ruined church and churchyard standing in open fields, with barely a tradition remaining in regard to the site or plan of the first capital of Virginia. Now, through his efforts, we know the site of the public buildings, of the homes of distinguished colonists, of the forts and the location of the old shore line, and can even say, within a few yards, exactly where the first settlers landed.

Mr. Yonge has generously assigned all his rights in the present edition to the Association for the Preservation of Virginia Antiquities, and all profits from the book will be used to help plans of preservation or improvement at Jamestown.

The ladies of the Association feel that in publishing Mr. Yonge's work they are erecting a monument to the founders of our country more durable than many which might be built of stone.

The price of *The Site of 'Olde James Towne'* will be one dollar, and for the present any orders which may be sent in care of the editor of this magazine will receive proper attention.

THE REGISTER OF ST. PETER'S PARISH, NEW KENT COUNTY, VA.
Published by the Society of Colonial Dames of America, in the State of Virginia.

In our July number it was announced that the Virginia Society of Colonial Dames proposed to print the valuable register of the births, deaths and marriages in this old parish. The printing of the register has been completed and at the time this is written (in the last week in
